

HIGH-LEVEL TRAINING COURSE
IN THE METHODOLOGY OF
POPULATION, DEVELOPMENT, AND ENVIRONMENT (PDE)
STUDIES
and
PROPOSAL PREPARATION

- The Wellcome Trust has funded a new Asian MetaCentre for Population and Sustainable Development Analysis.
- People who are interested in submitting proposals to the Wellcome Trust for the funding of research on Population Development and Environment Interactions in Asia are encouraged to attend the workshop.
- Research is to be conducted within the framework of the PDE METHODOLOGY developed at the International Institute for Applied Systems Analysis (IIASA), Laxenburg, Austria.
- **CONTENT:** IIASA PDE METHODOLOGY and Proposal design.
- **GOAL:** To produce fundable research grant proposals that will be submitted to the Wellcome Trust.
- **PLACE:** The College Of Population Studies, Chulalongkorn University, Bangkok, Thailand.
- **DATES:** 13th to 24th November 2000.
- **EXPENSES:** All travel expenses and local expenses during the workshop will be reimbursed.
- **PARTICIPANT BACKGROUND:** Participants should have experience in the application of computer modelling to related problems. Participants will learn and apply dynamic modelling techniques.
