

Female Deficit in Asia: Trends and Perspectives

International conference, Singapore, 5-7 December 2005

Organized by CEPED - CICRED - INED

Hosted by the Asian MetaCentre for Population and Sustainable Development Analysis

In a context of rapid social and economic change, characterized most notably by rapid fertility decline and economic growth, several Asian countries are witnessing an exacerbation of discrimination against women from conception to adulthood. As a result, an almost simultaneous female deficit has emerged in regions of Asia over the last three decades, leading to a gradual masculinization of the population.

The conference will be held in Singapore at the [Asian MetaCentre for Population and Sustainable Development Analysis](#) on 5-7 December 2005. Centers and scholars working on population are invited to communicate to the conference secretariat a proposal on this theme.

The conference is organized by CEPED, CICRED and INED in order to promote South-South and North-South exchange with support from the Asian MetaCentre for Population and Sustainable Development Analysis, Singapore.
